

Letter of Authenticity

LOA#: 150308-02

Date: March 8, 2015

Subject: Apollo 11

Item: 8x10 photograph

Signatures:

1. Buzz Aldrin
2. Neil Armstrong
3. Michael Collins

Analysis

This item has been thoroughly examined and compared to Autopen patterns, secretarial exemplars, and known forgery styles. It has been checked under high magnification to ensure it is hand-signed and not mechanically printed.

In reviewing an extensive file of verified authentic exemplars, and applying many years of hobby experience, it is my opinion the signatures on this item are consistent with authentic exemplars in terms of formation, flow, size, slant and pressure.

In my opinion, the signatures on this item are authentic, and the inscriptions are in the hands of the respective signers. The dedication is in the hand of Neil Armstrong.

This letter must bear my original signature, the Zarelli Space Authentication embossed seal covering a portion of the photograph, and a Zarelli Space Authentication tamper evident hologram. Thank you for the opportunity to review this item.

Respectfully submitted,

Steve Zarelli
